SUMMARY

- **People-Centered** - I feel motivated when people share their problems with me. I thrive on understanding their pains, building relationships, and crafting practical solutions in the form of strategies, processes, or products.
- **Product Management * Startup Development * Marketing** - Devoted to and excel in 3 areas, each strengthening the others: envisioning and managing products that solve customer problems, scaling startups into thriving businesses, and driving growth through creative storytelling in marketing.
- **Agile** - Believe in continuous improvement through feedbacks and thus keep innovating the process with substantial experience in servant leading, managing people, and creative thinking. Combine big-picture thinking with rigorous execution.

EXPERIENCE

ASSOCIATE BUSINESS DEVELOPMENT, Green Tick Nepal Pvt. Ltd. – Kathmandu, Nepal Aug 2024 – Present

- **Product Launch & Marketing** - Spearheaded the Go-To-Market strategy for the launch of the new product, GKavach-Dark Web Monitoring. Developed user stories, detailed buyer personas, a customized marketing funnel, persona-specific messaging, a 6-month detailed marketing plan, and a research-driven pricing strategy.
- **Market Research & SEO** - Performed in-depth SEO audits of 3 websites. Conducted competitor analysis, and developed targeted SEO strategies that increased website ranking by 20% and improved global visibility.
- **Business Analysis & Brand Positioning** - Researched and recommended participation strategies for the Product-ICT Award 2024. Designed a detailed business model, competitor analysis, pricing strategies, and Go-To-Market strategy leading to a Top 5 placement of another new product, GKavach. Also, successfully applied for and secured the selection of GKavach in the "Microsoft for Startup Founders Hub".
- **B2B Focus** - Developed and secured approval for a proposal to conduct a WCAG 2.2 AAA-level Web Content Accessibility Audit for Kathmandu University, a new service. Successfully tested and audited 50+ web pages.
- **Process Innovation** - Designed and automated SharePoint ecosystems for a USA based client company, configuring multi-site permissions, Power Automate workflows, and dynamic content to streamline cross-departmental collaboration. Orchestrated the seamless migration from Google Workspace to Microsoft 365 (mail, calendar, drive) to optimize enterprise productivity.
- Developed Python scripts to automatically browse any number of websites, crawl any number of pages inside each website, scrap emails from there and output it in Excel file and Google drive.
- Designed Power Automate flows to automate multiple business processes - dynamic list in SharePoint synced with Outlook calendar in real-time, automated client portal capable of creating clients folders, and mailing sharing links to them automatically, automatic asset management for managing and keeping tracks of assets used in company, automated mailing with custom body and subject, etc.
- **Customer-Centered** - Redesigned, optimized and developed greentick's website - it's UI/UX, content and functionalities using Figma and Wordpress for improved SEO and user experience; drafted privacy policy and terms & conditions for multiple products.
- Directed comprehensive Go-To-Market strategies, launches, and SEO for two international companies, Zinc Solutions (Bhutan) and Vexa Security (USA), overseeing end-to-end processes including brand naming, logo design, service development, website creation, client management, and lead generation for successful outreach.
- **Strategic Partnerships & Business Growth** - Identified over 1000 potential global B2B leads for partnerships and crafted multiple partnership strategies and proposals.
- **Creative Storytelling & Branding** - Designed and produced multiple promo videos, outreach emails, newsletters, blogs, Logos, and digital flyers to drive impactful marketing campaigns resulting in a 25% increase in social media engagements.
